Recommendations Guide

LONG-TERM BUY: The Company has strong fundamentals. However, there are certain investments or strategies that would require an investor to have a long-term view of the company to allow for capital appreciation. In addition, the company may be facing headwinds that we view as short term

BUY strong fundamentals. Minimal risks to the catalysts/growth drivers

NEUTRAL: This is where the positives and negatives in a company almost balance out. You can accumulate for the long term

SELL deteriorating fundamentals. Risks outweigh the catalyst/growth drivers
